

MANITOBA[®]

la Qualità è nella nostra natura

GENERAL
CATALOGUE

OUR HISTORY

Manitoba represents the third generation of ornithology and pigeon racing experts. It all began with a passion for bird breeding and it has now become one of the top industries in the European and international ornithological branch. Today Manitoba is the leader in the professional and hobbyist ornithological division and is also active in the pigeon racing field and in the small rodents and pet rabbits sector.

RESEARCH AND QUALITY

Manitoba products come from decades of experience in the field and are always cutting edge in all the ornithological breeding phase.

Particular care in selecting the grains and seeds and continuous research of new components make our products excellent from start to finish.

PRODUCTS AND SERVICES

Our top products include single seeds and grains, and our renowned mixes for canaries, exotic species, parakeets, parrots, forest birds, rodents, and so on. Without forgetting our almost legendary patè branded "Dolce Forno", and amongst our most recent products, the Manitoba speciality products, classics for professional ornithological breeding.

MY PARROTS UNIQUE

Complete feed for parrots based on extruded plant feeds particularly rich in vitamins and trace elements. Recommended for all species of medium and large parrots.

The extruded product prevents the selection made by the animal to only choose the tastiest pieces, usually oily seeds or dried fruit, thus insuring a complete and well-balanced nutrition.

INGREDIENTS

Grains
Plant protein extracts
Plant by-products
Vegetables
Eggs and egg-based products
Minerals
Fish and sunflower oil
Dried forage
Sugars Yeasts

PACKAGE SIZE

2 kg bag x 4 pcs

MY PARROTS SENSIBLE

A complete feed for parrots with extruded vegetable feed and dessicated and dried fruit. This mix with a high nutritional value and excellent taste is ideal for both large parrots like the Ara species and medium sized species such as common grey parrot. Its many shapes and colours hold an important antidepressant function and make eating a fun and playful activity. My Parrots Sensible is enriched by 15% of dessicated and dried fruit.

INGREDIENTS

Grains	Minerals
Plant protein extracts	Fish and sunflower oil
Dried fruit	Sugars
Plant by-products	Yeasts
Vegetables	
Eggs and egg-based products

PARROT RANGE

MY PARROTS ARA & C.

A complete feed for parrots with extruded vegetable feed and dessicated fruit. Its formula includes a moderate Fat content, ideal for the species that tend to store fat in their livers (steatosis), such as Amazon and Cockatoos.

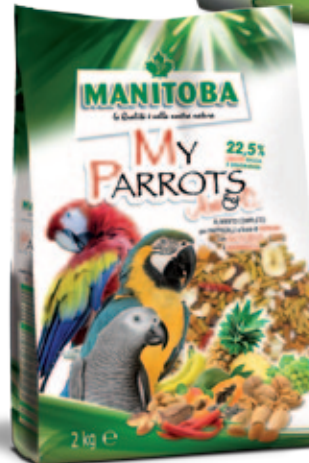

What makes My Parrots Ara & C. special is the addition of dessicated fruit (22.5%) which, together with the different coloured and sized pieces, pairs the healthiness of the feed with an antidepressant effect.

Its formula also prevents the animal from choosing only the oily bits.

PACKAGE SIZE	CODE
1 kg bag x 6 pcs	4296
5 kg bucket	4295
15 kg bag	4295/S

SPLENDID SOFT YELLOW

Splendid like the sun, to underline its “yellow” nature, this mix uses whole eggs and feed materials that make it particularly pleasing to most of the bred species, not only canaries, but also exotic species, lovebirds, neophema, cockatiel, budgies, etc. Splendid has a high protein (18,2%) and fats (13,8%) content as well as a pleasant taste, but its most distinguished trait is the balance and richness in its essential amino acid ratio that prevent limitations in protein synthesis.

INGREDIENTS

Bread products
Plant protein extracts
Grains
Fats and oils
Sugars
Eggs and egg-based products
Seeds
Minerals
Milk and milk products
Flavourings

PATÉ RANGE

SINCERE DRY WHITE

Sincere: true to his name, this mix contains a few selected feed materials for a white dry paté, ideal for subjects prone to gilding, and is formulated without compromising technology or nutrition. Its grain size is small and even, especially designed for sprouted seeds to obtain a smooth texture and humidity, almost free of lumps that are not so tasty.

Sincere has a fair protein level (18,2%) from soya concentrate, egg whites and Calcium caseinate, and a moderate Fatsc content (7,4%).

INGREDIENTS

- Bread products
- Grains
- Plant protein extracts
- Fats and oils
- Sugars
- Egg products (egg whites)
- Minerals
- Milk and milk products
- Flavourings

PACKAGE SIZE	CODE
3 kg bag x 4 pcs	4318
4 kg bag x 4 pcs	4319

Specially designed to avoid altering the natural colour of the canaries

CANDID SOFT WHITE

Candid, soft as snow, to highlight its “white” ingredients: soya protein concentrate, egg whites, dairy products (casein). Its cross-cutting feature not only includes proteins (18,2%), but also starches, fats (13,8%) and sugary substances.

It's part of the Italian tradition of white soft paté, with its precise nutritional values and functions. (“yellowing” risk).

The particular texture of this paté is an optimal support for colouring agents.

INGREDIENTS

- Bread products
- Plant protein extracts
- Grains
- Fats and oils
- Sugars
- Egg products (egg whites)
- Seeds
- Minerals
- Milk and dairy products
- Flavourings

PAPPAFRUIT

PappaFruit is the latest product for medium and large sized parakeets and all parrots. This semi-soft paté (fats 9.5%) has a coarse and even grain size with a high fruit content (16.5% of candied fruit, crushed bananas, raisins, walnuts and hulled almonds) and animal proteins (egg whites and whole eggs, 6%). PappaFruit is not only tasty but also visually appealing.

PACKAGE SIZE

INSECTA BLAKBIRDS & MAINE

A complementary feed for insectivore species with Charcoal. Usually paired with fresh fruit and vegetables.

PACKAGE SIZE	CODE
1 kg bag - 6 pcs display	4257/1

“Nectar Manitoba” Range

Nectar Manitoba is very tasty and easily absorbed and acts as feed regulator and supplement when paired with grains, seeds, fruit and vegetables.

A mix of bread products, eggs, soya bean and potato protein extracts, macro and trace elements, minerals and vitamins.

Nectar Manitoba is administered by compressing it without extruding it, thus preserving protein and heat-sensitive vitamin integrity.

Nectar Manitoba is a complete feed and is ideal for all breeding stages. Its efficiency and absorption is directly related to the specific needs of the animal in each biological stage (feeding, moulting, stress, etc.). It can be used on its own in a specific container, mixed with classic mix or in a soft paté, or even blended with fruit juice or vegetable oil in a dry paté.

NUTRITIONAL VALUES

Raw protein 22.0%
Raw fats 7.5%
Raw cellulose 2.2%
Humidity 10.0%
Raw dust 4.8%
Calcium 0.9%
Phosphorus 0.4%

USE AND DOSAGE

Use and dosage are different from species to species and for the different breeding stages.

Upkeep:

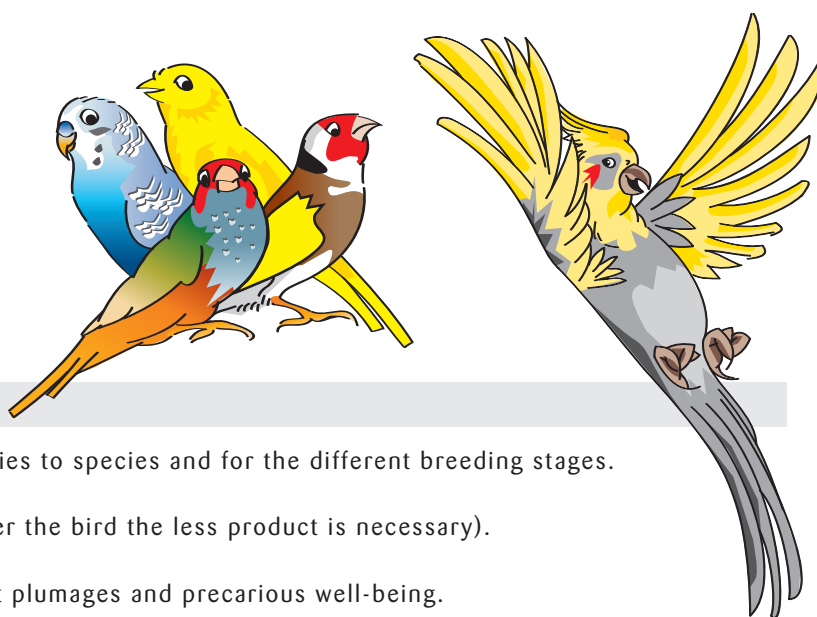

from 5 to 8% in weight ratio (the heavier the bird the less product is necessary).

Moulting and stress

from 10 to 15% and more for important plumages and precarious well-being.

Breeding

Up to 25% of the daily ration.

Speciality Range for Ornithology

In the next pages MANITOBA presents its own way to see the world of ornithology. Multivitamins, prebiotics, pigments, multifunctional foods, trace elements, material feeds and many more.

MANITOBA has developed a balanced line, with few but innovative and efficient products. This collaboration was born thanks to the combined effort of MANITOBA and Italian and international friends and experts, which have been cooperating with the company in order to reach these important goals.

WINNER STRESS MIX

A mineral complementary feed with a high content of Tryptophan and Vitamin C, ideal for subjects prone to stress due to travelling, caging and thermal change. One of the characteristics of the Tryptophan is its “relaxing/ soporific” effect. As a result, young mammals tend to fall asleep after lactation. This essential amino acid prevents phenomena like nervousness and consequent cannibalism and pica in all bred species and it is used very much even if it commands a high price.

PACKAGE SIZE	CODE
200 g tub with 6 pcs display	C2600

NUTRITIONAL ADDITIVES / kg
Vitamin C 90,000 mg Tryptophan 5,000 mg

WINNER VIT

A multivitamin complementary feed with minerals and essential amino acids such as Methionine and Lysine. Ideal for chick growth and enhancing organic defenses and reproductive functions. Also very useful during laying and brooding periods, and in managing stress.

Raw Fibress 3.6%
Raw dust 6.7%

GOLDFINCH URTICA

GoldFinch Urtica is a mix made with vegetable products used by tradition for wellness: *Urtica dioica* (common nettle), *Eleutherococcus senticosus* (siberian ginseng), *Panax ginseng* (chinese ginseng), *Foeniculum vulgare* (Fennel), and also yeasts (*Saccharomyces Cerevisiae*), rind and pith of citruses (rich in flavonoid glycosides Hesperidin and Naringin and minor quantities of minor flavonoids).

The use of GoldFinch Urtica is ideal in all caged bird species and especially for goldfinches and forest birds.

PACKAGE SIZE	CODE
120 g tub with 6 pcs display	C2635

INGREDIENTS

Dessicated plant products
(a mix of *Urtica dioica*, *Eleutherococcus senticosus*, *Panax ginseng*, *Foeniculum vulgare*)
Calcium carbonate from ground rocks
Dried *Saccharomyces Cerevisiae* yeast
Rind and pith from dessicated citruses
Carob flour

CASEA BIRDS

Casea Birds is dissolved in water and forms a particular "colloidal solution" for preparing ornithological feeds and patès. CaseaBirds has a high amino acid profile of high biological value and supplies calcium in an easily digestible way.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2609

INGREDIENTS

Calcium caseinate 100%

NUTRITIONAL VALUES

Raw proteins 90.0%
Raw fats and oils 1.5%
Raw dust 4.59%

SPECIALITY RANGE

SILYSAN 60

Silysan 60 is a complementary feed with purified milk thistle seed extract (Silymarina) and purifying substances, such as yeasts, vitamins and amino acids.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2610

INGREDIENTS

Saccharomyces Cerevisiae yeast
Soluble grain distillates
Soft wheat
Purified milk thistle seed extract (6%)
Wheat groats
Flavourings

NUTRITIONAL VALUES

Raw proteins 32.0%
Raw fats and oils 2.3%
Raw Fibress 3.2%
Raw dust 12%

*with purified
Milk Thistle extract*

YEAST 46

Yeast 46 is a yeast made exclusively from Saccharomyces Cerevisiae and it comes from a renowned german brewery specialised in beers with a high hop content. This makes the product darker and rich in active ingredients such as Humolone and Lupulon. It's rich in vitamin B and trace elements, and this product is particularly designed for breeding and growth stages of young birds.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2614

INGREDIENTS

100% Brewer's yeast (Saccharomyces Cerevisiae)

NUTRITIONAL VALUES

Raw proteins 46.0%
Raw fats and oils 2.7%
Raw Fibres 1.1%
Raw dust 8.0%
Humidity 6.0%

PUPA BIRDS

The chrysalises, insects (silkworms) in the pupa stage, are suppliers of sulphurized animal proteins, rich in cysteine and methionine. These are balanced by the add of a concentrated potato protein extract, which supplies amino acids such as threonine and tryptophan.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2615

INGREDIENTS

Silkworm pupa meal 80%
Plant protein extracts
Carob flour

NUTRITIONAL VALUES

Raw proteins 50.0%
Raw fats and oils 20.0%
Raw Fibress 3.7%
Raw dust 5.0%
Humidity 5.0%

SPIRUSIL CARDUELIS

SpiruSil Carduelis is a complementary feed for forest birds (European goldfinches, Spinus, Eurasian bullfinch, etc.); its formula includes Spirulina, Milk thistle seed extract and other detox substances, such as yeasts, vitamins and amino acids.

The use of SpiruSil Carduelis, for its intrinsic qualities, is always a good idea, especially during mating and breeding stages, when the hepatic load is particularly high for the use of foods rich in fats and proteins.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2637

INGREDIENTS

Saccharomyces Cerevisiae yeast
Soluble grain distillates
Soft wheat spirulina
Purified milk thistle seed extract (5.4%%)
Wheat groats
Flavourings

*with Spirulina
and purified
Milk Thistle extract*

SPECIALITY RANGE

PRO MIX 71

A feed with amino acids flour balanced with the right mix of plant protein extracts (potato and soya protein concentrate) and feed material of animal origin (Egg whites and Calcium caseinate).

PACKAGE SIZE

600 g tub - 6 pcs box

CODE

C2608

INGREDIENTS

Plant protein extracts
Egg whites
Calcium caseinate
Flavourings.

NUTRITIONAL VALUES

Raw proteins 71.0%
Raw fats and oils 1.75%
Raw Fibress 2.0%
Raw dust 5.0%
Humidity 8.0%

EGG WHITES

A feed with high protein content, with high biological value proteins. The egg white is preferred over the egg yolk as a protein source because it prevents yellowing of the feathers. The amino acid profile of the egg whites is biologically rich and ideal for the needs of every oviparous species. Adding 10 g of egg white to 100 g of paté increases protein intake by 5.0%.

PACKAGE SIZE	CODE
600 g tub - 6 pcs box	C2612

NUTRITIONAL VALUES
Raw proteins 78.0%
Raw fats and oils 3.5%
Raw Fibress 1.0%
Raw dust 5.0%
Humidity 5.0%

WHOLE EGGS

Whole Egg powder has an optimum amino acid – Fats balance and it's rich in cholesterol. The egg protein has a very high digestibility (>99%) and also a fatty acid source (75% unsaturated). The egg is ideal for all bird species. Adding 10 g of Whole Egg powder to 100 g of paté increases protein intake by 3.0%. It's important to remember that per every 10 g of whole eggs powder added 4g of fat need to be added as well.

PACKAGE SIZE	CODE
400 g tub - 6 pcs box	C2613

NUTRITIONAL VALUES
Raw proteins 45.0%
Raw fats and oils 40%
Raw dust 5.0%
Humidity 7.0%

SPECIALITY RANGE

GRAND STICK 28

A complete feed for hand by hand feeding of insectivore bird species fed in the nest. As an alternative it can be used as a complementary feed with variable percentages (10-20%) in the preparation of the "sticks".

P. is an ideal complement for homing pigeons that are subject to intense training and energy consumption in cross-country and speed races

PACKAGE SIZE	CODE
600 g tub x 6 pcs in a box	C2605

INGREDIENTS

Saccharomyces Cerevisiae yeast
Soluble grain distillates
Soft wheat
Purified milk thistle seed extract (6%)
Wheat groats
Flavourings

ENTER COX

Enter Cox is a complementary feed for pigeons with natural Asteraceae, Rosaceae and Fabaceae plant extract. These extracts create an unfavourable environment for asexual multiplication of all known coccidia species in the poultry field.

PACKAGE SIZE	CODE
700 g tub x 6 pcs in a bag	C2617

INGREDIENTS

Extracts:
Dog rose
Thyme
Echinacea

PIGEON ACCESSORY & SPECIALITY RANGE

YEAST 46 PIGEONS

Yeast 46 is ideal during breeding and growth of young pigeons due to its formula with a high concentration of vitamin B and trace elements.

INGREDIENTS

Natural vitamin content per kg:

- Vit. B1 125 mg
- Vit. B2 45 mg
- Vit. B6 45 mg
- Vit. PP (Niacin) 400 mg
- Vit. H (Biotin) 0.85 mg
- Vit. B3 (Pantothenic acid) 100 mg
- Choline chloride 18 mg

Natural trace elements content per kg:

- E1 Iron 480 mg
- E4 Copper 60 mg
- E6 Zinc 100 mg
- E5 Manganese 50 mg

NUTRITIONAL VALUES

- Raw proteins 46.0%
- Raw fats and oils 2.7%
- Raw Fibres 1.0%
- Raw dust 8.0%
- Humidity 6.0%

PACKAGE SIZE

700 g tub x 6 pcs in a box

PIGEON ACCESSORY & SPECIALITY RANGE

Pigeon grit

The various components of this grit are essential for an optimal digestion and a rich source of minerals for pigeons. These are necessary for muscle and bone structure development, good health and fertility.

PACKAGE SIZE	CODE
5 kg bag	4055
20 kg bag	4002

Pietra Rossa Pigeons

Pietra Rossa is a 100% natural product and contains no additives. It is made from clay that has been baked at high temperatures. Pietra Rossa is rich in minerals and trace elements, aids digestion and gives solid droppings.

PACKAGE SIZE	CODE
5 kg bag x 4 pcs	4006/5
20 kg bag	4006

Red Vitamin Grit Pigeons

A complete mix with clay, oyster shells, minerals and vitamins.

PACKAGE SIZE	CODE
5 kg bag x 4 pcs	4005

Grit Energy Pigeons

A complementary feed for pigeons with minerals (Grit, porous rocks, Pierre a Picorer, Zeolite) and organic structures (Seeds, extruded carrots and patè, algae), as well as Calcium Propanoate

PACKAGE SIZE	CODE
5 kg bag x 4 pcs	4086
